Mike Romanowski has been appointed to senior structural engineer for SMR Structural Engineers Inc. He has more than 25 years of structural engineering experience and currently serves on the Code

Romanowski

Streamlining Committee for the Structural Engineers Association of California. California Transportation Ventures Inc. has announced the hire of **Gary Thompson** as roadway operations manager and **Paul Adams** as manager of sales and customer operations. Thompson has more than 12 years of experience with toll roads and comes to the state Route 125 South team from Transportation Corridor Agencies, where he served as manager of cash operations. Thompson will be responsible for managing all roadway elements of the SR 125 South Toll Road. Adams has more than 14 years of senior management experience in the administration and operations of customer service centers. Adams' responsibilities for SR 125 South will include managing all sales and customer service activities. In addition, he will play a key role in the design and implementation of toll collection and customer service technology applications as well as the design and implementation of SR 125 South co-marketing relationships, programs and activities.
